

Dear Andy,

Thank you for introducing us to Mobile Bytes and all of its wonderful capabilities. We were hesitant to make the change from our former POS, but knew it was time to move to a Cloud based technology to complement our growth. We have now been using Mobile Bytes for nearly a year and I can't thank you enough for the recommendation. Navigating through the immense amount of POS systems was truly mind boggling. We chose Mobile Bytes because it was the only Cloud based system that offered real people with proven knowledge of their product. Andy, Andrew and Kevin have been an incredible resource(s) to my Staff as we have implemented Mobile Bytes into all of our locations with very minimal headaches. We found the key to success with a POS is a combination of intuitive technology and an excellent support team. Emerald Business Systems is an excellent support team.

Thank You EBS!!!

Michael Sackin
